

Solstice Analytics Group

Partner Relationship & NDA Management Policy

Legal & Compliance Policy

Document ID: POL-LEG-011

Version: 2.0

Effective Date: March 1, 2026

Owner: General Counsel

Related Policy: POL-SEC-004 Data Classification & Handling Policy

1. Purpose

This policy governs how Solstice Analytics Group ('the Company') establishes, tiers, and manages relationships with external partners, and how Non-Disclosure Agreements (NDAs) are recorded, tracked, and enforced. It works alongside the Company's Data Classification & Handling Policy (POL-SEC-004) to determine what data may be shared with which partners under what conditions.

2. Partner Relationship Tiers

Every external partner is assigned one relationship tier, reviewed annually by the Partnerships team and approved by the relevant Business Owner.

Tier	Definition	Data Sharing Ceiling
Strategic	Long-term partners with deep operational integration and may establish Restricted data, subject to an active NDA naming	May establish Restricted data, subject to an active NDA naming
Standard	Established partners with a defined, limited scope of collaboration may receive Confidential data with NDAs; Restricted data requires	May receive Confidential data with NDAs; Restricted data requires
Limited	New or narrowly-scoped partners, including trial or pilot engagements. Internal data only, regardless of NDA status.	Internal data only, regardless of NDA status.

3. NDA Registry

The Partnerships team maintains a central NDA Registry recording, for each active agreement: the covered partner, effective and expiration dates, the specific data categories named in the agreement, and the signing Legal contact. No data sharing arrangement is valid unless recorded in the Registry.

An NDA covers only the data categories it explicitly names. An NDA that does not name a data category does not authorize sharing of that category, even if the partner's relationship tier would otherwise permit it.

4. NDA Lifecycle Events

Event	Required Action
NDA signed	Register in NDA Registry within 5 business days; notify data owners of newly authorized sharing
NDA nearing expiration (30 days out)	Partnerships team notifies the Business Owner and Legal to initiate renewal or wind-down.
NDA expires without renewal	All data sharing under that NDA stops immediately. Any document referencing data covered by th
NDA terminated for cause	Immediate access revocation; Legal reviews for further action; affected documents re-classified.
Partner tier changed	Partnerships team re-evaluates all active NDAs and data sharing arrangements against the new t

5. Roles and Responsibilities

Role	Responsibility
Partnerships Team	Maintains the NDA Registry and partner tier assignments; monitors upcoming expirations.
General Counsel / Legal	Reviews and approves NDA terms; approves Restricted data sharing exceptions.
Business Owner	Requests partner tier assignment and renewal; accountable for data shared with that partner.
Data Owner	Confirms data category classification before any external sharing is authorized.

6. Version History

Version	Date	Summary of Changes
1.0	2023-08-01	Initial policy release.
1.1	2024-05-14	Added Limited tier definition.
2.0	2026-03-01	Added NDA lifecycle event table; clarified named data category requirement.
